

Dyslexic strengths

Big picture thinking

I can see what it is before I make it. I can see what parts will work and what parts I need on hand to finish it.

I have the whole story in my head ready to write about. It is like a movie playing with all the characters.

I can see where everyone is placed on the rugby field. I just know where they are and where they will go to.

Empathy

I can see how other people feel, just by looking at them, I just know.

I can tell when someone feels sad.

I can feel how all the people in the room are feeling.

Problem solving

I connect all these different ideas and information together to get different answers to problems or questions.

I'm really good at seeing patterns in things and creating new ones.

I come up with solutions and I don't know how I got them, they just happen really fast in my brain.
